## Where's My Elf Hat Kit

**Futurebound, LLC**

Ages 2 to 6

### What It Is

Where's My Elf Hat is a tiny felt hat that allows your kids to communicate with Santa Claus. Kids can write notes to Santa then roll them up and stick them in the hat. "An elf" will collect the notes at night, take to Santa and then leave a reply from Santa in the hat for kids to find the next day. Think of it as a cross between the Tooth Fairy and e-mail.

### Why It's Fun

Where's My Elf hat is a clever and imaginative idea that could become a new Christmas tradition for you and your kids. It also provides parents with a great way of putting a Christmas list together and letting kids gently know that a pony is out of the question. The elf can tell children in a non-intimidating way the pros and cons of certain toys. Since it's the parents who will be replying to the kid's letter, the elf deals with every aspect of the Christmas season - from spirituality to giving and receiving.

### Who's Going To Love It

Parents who are looking for a new tradition to start with their young kids will appreciate the Elf Hat Kit.

### What To Be Aware Of

The Where's My Elf Hat Kit comes with a booklet of information including tips and sample Elf letters, questions and answers plus recipes.

### Suggested Retail Price

\$9.95
